

FOR YOUR VET OR NUTRITIONIST

BOLUS SPEC SHEET

Everything on the label — guaranteed analysis, ingredients, and directions — for both boluses. Made in the U.S.A. Print it, or forward this page to whoever signs off on your fresh-cow program.

An oral calcium chloride bolus providing immediate and sustained release of calcium in blood serum. For use as a replacement calcium supplement in freshening dairy cows.

GUARANTEED ANALYSIS

Calcium (Ca), min	21.35%
Calcium (Ca), max	27.05%

Each 203 g bolus contains 44 grams of calcium.

INGREDIENTS

Calcium chloride, water, wax (coating). All ingredients are feed grade.

NET CONTENT

Pack of 54 • 54 × 203 g (11.0 kg / 24.1 lb)

DIRECTIONS FOR USE

Remove the plastic cover and place the rounded end toward the cow. Administer one bolus orally with the No B.S. stainless steel applicator (or a commercially available balling gun) immediately after calving, and a second bolus 12 to 24 hours later.

STORAGE

Store at 36–86°F. Open the sealed plastic covers just prior to use; moisture affects the boluses.

MADE IN THE U.S.A.

NO FILLERS, NO EXTRAS

CAUTION

- For use in animals only. Keep out of reach of children.
- Do not administer to cows lying down, aggressive animals, or those without a normal swallowing reflex.
- If choking occurs, give water to speed bolus dissolution.
- Do not use broken or sharp-edged boluses. Please return for exchange.
